

Meritor Part

Meritor Parts - Meritor is a leading international dealer that is proudly founded on a one hundred year tradition of service and quality. They focus on different integrated systems, modules and parts to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's unique energy and believes that this particular energy contributes to their competitive advantage in the international operations. The business values all their customers and would like to guarantee their success while anticipating their different requirements. Meritor starts with a philosophy which values diversity of people and their broad thought processes. Operating in 19 countries and hiring over 11,200 people, Meritor encourages innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in only employing future focused employees. These top-caliber individuals could quickly adapt to changing surroundings and freely demonstrate the level of performance and commitment considered necessary so as to get results for the competitive market environment. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers all their workers various possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise axles, drivelines, suspension and braking systems utilized for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is even responsible for supporting the requirements of all their international engineering workers.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated all around the globe in 19 nations and in 5 different continents.

The supplier development network is specifically located to be able to support new business development. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each aspect of the trade. The DFSS or otherwise known as Design for Six Sigma ensures product reliability within every region. The team is likewise comprised of transactional Green Belts who apply Six Sigma tools to business methods and implement lean techniques.
