

Concrete Hopper

Concrete Hopper - This accessory is a self-dumping hopper that automatically triggers to dump whenever bumper release touches the side of a dumpster. As soon as dumping is completed, the hopper returns to a locked and upright position. This particular piece of equipment is even available along with a cable that allows operation from the seat of the forklift so as to have the alternative of manually dumping the hopper. There is a locking chain provided in order to secure the hopper to the tine truck. This product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper even has a blue powder coat finish in order to maintain durability.
