

Barrel Clamps

Barrel Clamps - A Barrel Clamp is actually a mechanical or hydraulic attachment meant for a lift truck. It can be utilized to grip the item you want to transport with the lift truck and is typically used for handling paper rolls, barrels, and kegs. A few designs of barrel clamp attachments even have a rotate function. Like for instance, the revolving function permits the person operating the forklift to insert a vertically stored paper inside the horizontal intake of a printing press.
